ISODP
TODAY!**

“Advancing organ donation is a common global mission and I believe we all have opportunities to learn and grow by sharing best practices internationally. Membership in the ISODP creates that chance to develop an understanding of global challenges in increasing donation, and to meet colleagues and strengthen international cooperation and promotion.”

Susan Gunderson, Chief Executive Officer, LifeSource, Minnesota, USA

MISSION

The mission of the International Society for Organ Donation and Procurement (ISODP) is to foster, promote and develop all aspects of organ and tissue donation and procurement. The ultimate aim is to increase the supply of high quality organs and tissue to match the need.
